

## **GERMAN SHEPHERD RESOURCE AND RESCUE CENTER**

### **Child Policy**

---

In order to foster for GSRRC or to adopt from GSRRC, children living in the home must be 10 or older. While we realize that we may be passing on some wonderful homes, we feel that this is a necessary policy for the safety of all.

For very experienced GSD homes, applicants may apply for an exemption to this child policy. The exemption request must include a detailed letter describing your experience with GSD's and your lifestyle. You must be committed to supervising all interactions between your children and your GSD. We also require a letter of recommendation from your veterinarian regarding the care and well being of your previously owned GSD's.

If granted an exemption to the child policy, GSRRC will only place well socialized GSD's that have a positive history with children. These waivers for an exemption to the child policy will be approved on a case by case basis
