

# Say Hello to JJ!

---

JJ is a ravishing 7-year-old coated German Shepherd who just loves people! She was surrendered because her family had to move and found out that their new apartment would not take dogs of her size.

JJ is a talker and loves to let everyone know what she is thinking...she just loves a good conversation!

She loves to play outside and her ball is one of her favorite toys. She also has a great time with her squeaky toys and will squeak them to get your attention. JJ will nudge you for some scratches and pets and then be happy to relax and watch some TV with you. She has no show preferences but wouldn't mind a sitcom or two.

JJ will bark at unfamiliar dogs but will sit when told to and watch the other dog walk by. She is currently fostered with several dogs and would do very well with a male dog at home as long as properly introduced (and we can help with that!)

She has never been exposed to cats but does chase small animals so a cat free and small dog free home would be better suited for her.

This girl is loving and cuddly, she would be a great family dog. She would do well with a family with kids as she lived with them in her former home.

JJ walks well on a leash and knows basic obedience but we recommend her new family go to obedience classes to promote bonding with her (and it's fun too!). She is just beautiful and would love to be the star of your neighborhood as you walk her around to show her off.

She is in great health but does have pannus, an eye condition common in GSDs. She gets nightly eye drops and will need to continue with them. (Two of my own three GSDs have pannus.)

JJ is spayed, current on all vaccinations, crate trained and house broken. She would make a wonderful addition to any family, and has years of companionship and fun to provide!

If you or anyone you know is interested in adopting JJ visit our website and download and complete an application. To be considered, you must complete an adoption application. Thank you so much for considering GSR&RC ...it's all about the dogs.
