

# Meet Diesel!

---

Diesel is handsome, intelligent German Shepherd who is looking for just the right home!

A little about Diesel...

Diesel is a very smart, 5 year old East German boy with a lot of energy. His previous owners could not keep him due to health reasons. A true German Shepherd Dog, he only wants to be with his people! We think Diesel's perfect home is out there, but we need them to not only have a full understanding of Diesel's personality, but also of the breed.

Diesel's perfect home....

We are looking to place Diesel into a home that has GSD experience, or experience working with large breed dogs with similar personalities. His new owners will need to be willing to work with him and clearly define boundaries so he is able to reach his full potential. Obedience classes with his new family are a must for this boy to promote the rules and bond with his new family.

His new home will not have cats as Diesel does not get along with them and chases them. He does go to doggie daycare 3 days a week and plays well with his canine friend. He is a good boy who just needs some guidance and structure so he can work on being the wonderful dog that he is!

More about Diesel...

He is up-to-date with routine shots, neutered, house trained, crate trained. His primary colors are tan and black and he has a medium coat length.

If you or any one you know are interested in adopting this special boy please visit our website and complete an application. To be considered, you must complete an adoption application. Applications can be downloaded from our website.

Thank you so much for considering GSR&RC ...it's all about the dogs.
