

This is Frigga!

We are pleased to introduce you to Frigga (pronounced Fricka)! Frigga is a beautiful 7 1/2 year old female sable GSD.

She is a wonderful companion, highly intelligent, well trained and obedient in most situations. She is a medium to low energy dog, always ready to accompany you on whatever you have planned for the day, but perfectly content to laze around if that's what your day calls for. She rides very well in the car, loves walks, playing with tennis balls and chasing sticks in the yard.

Frigga is in excellent health. She tends to put on weight easily so daily exercise will be required. She has seasonal and food allergies that are well controlled with a strict diet (no people food for her!) and occasional allergy medication. She suffers from the occasional yeast infection in her ears, but weekly cleaning keeps these successfully at bay, and she is very good about the process.

Frigga's earliest life is unknown to us, but it was strongly believed that she may have suffered some abuse. She prefers women and children over men, although with slow introduction and patience she will warm up. She needs to accept people in her own time, but once you're in, she'll love you forever!

Frigga is dog-reactive. She will need to be the only dog in the home, and will need to be in a securely fenced area or on-leash at all times without exception. With training and patience, she is learning to make better choices about her reactions, and will need a calm, firm and confident leader who can recognize her anxiety around other dogs and continue her training. She looks to her person for guidance and responds well to positive reinforcement training, she loves to please!

Despite her reaction to other dogs, Frigga loves cats! She would love a feline friend to spend her day with while you are at work. She likes to play, so a dog-savvy kitty would be a wonderful companion for her. Out of the home she has a strong prey drive, and would most likely chase, so supervision outside would be recommended. In the house she is an angel, no counter-surfing, completely housebroken and trustworthy with the run of the house.

Frigga is a wonderful, happy dog who will need an experienced GSD owner familiar with her issue of being dog-reactive. We strongly recommend a home with a fenced yard for this girl, and continued training and socialization will be required. Her new family must be willing to commit to training and understand her limitations, for this is not a GSD for the casual owner.

Frigga deserves a safe and understanding forever home. Through no fault of her own, she has been in 5 homes, including 3 foster homes, and has

been surrendered to rescue twice. She would love a secure home to enjoy her fast approaching golden years. She will bond deeply and unconditionally with her person, and can be the sweetest, most faithful and loving GSD you could imagine.

Frigga is house trained, spayed, micro-chipped and up-to-date on vaccinations. She will need to continue on a high quality, grain-free diet. She is completely house-broken and has terrific house manners.

If you are interested in Frigga or know anyone who would be, please complete and adoption application and email it to adopt@germanshepherdcenter.org.

Applications can be downloaded from our website.

Thank you so much for considering GSR&RC ...it's all about the dogs.
